

China International Industry Fair 2024

AFTER SHOW REPORT

24-28 September, 2024
National Exhibition and Convention Center (Shanghai)

Supervisors:

Shanghai Municipal Commission of Economy and Informatization
Shanghai Municipal Development & Reform Commission
Shanghai Municipal Commission of Commerce
Shanghai Municipal Education Commission
Science and Technology Commission of Shanghai Municipality

Host:

Donghao Lansheng (Group) Co.,Ltd.

Organizer:

DEXPO Shanghai Industry & Commerce Exhibition Co., Ltd.

Overseas Partner:

Hannover Messe

Co-organizers:

China Machinery Industry Federation
China Chamber of Commerce for Import and Export of Machinery and Electronic Products
China Nonferrous Metals Industry Association

Date: September 24 (Tue.) - September 28 (Sat.), 2024 5 Days

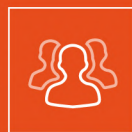

Venue: National Exhibition and Convention Center (Shanghai)

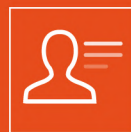

Total Show Spaces:
280,065 sq.m

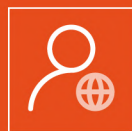

Trade Visitors:
201,618 visits
(169,145 visitors)
from 60 countries and regions,
domestic visitors from 31
provinces, autonomous
regions, and municipalities of
Mainland China

Group Visitors:
427
professional
visiting
delegations

Exhibitors:
2,610
exhibitors
from 28 countries and
regions

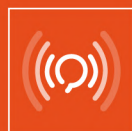

Overseas Exhibitors:
300

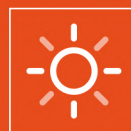

SRDI Enterprises:
620

*SRDI Enterprises: Specialized,
Refined, Differential, and
Innovative Enterprises

Media:
74,951
reports

Total Exposure:
1.544
billion clicks

Scales of CIIF 2018-2024

	Date	Show Spaces (sq.m)	No. of Exhibitors	No. of Visits
CIIF 2018	Sept 19 (Tue.) - Sept 23 (Sat.), 2018	287,902	2,665	174,118
CIIF 2019	Sept 17 (Tue.) - Sept 21 (Sat.), 2019	280,011	2,610	183,229
CIIF 2020	Sept 15 (Tue.) - Sept 19 (Sat.), 2020	255,121	2,350	191,792
CIIF 2023	Sept 19 (Tue.) - Sept 23 (Sat.), 2023	303,224	2,978	205,278
CIIF 2024	Sept 24 (Tue.) - Sept 28 (Sat.), 2024	280,065	2,610	201,618

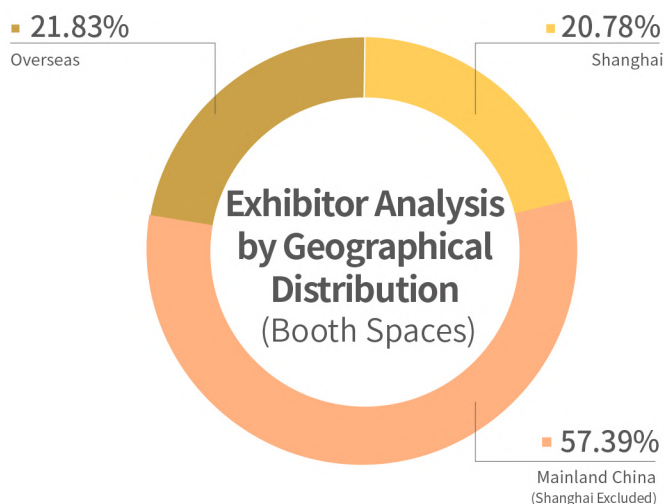

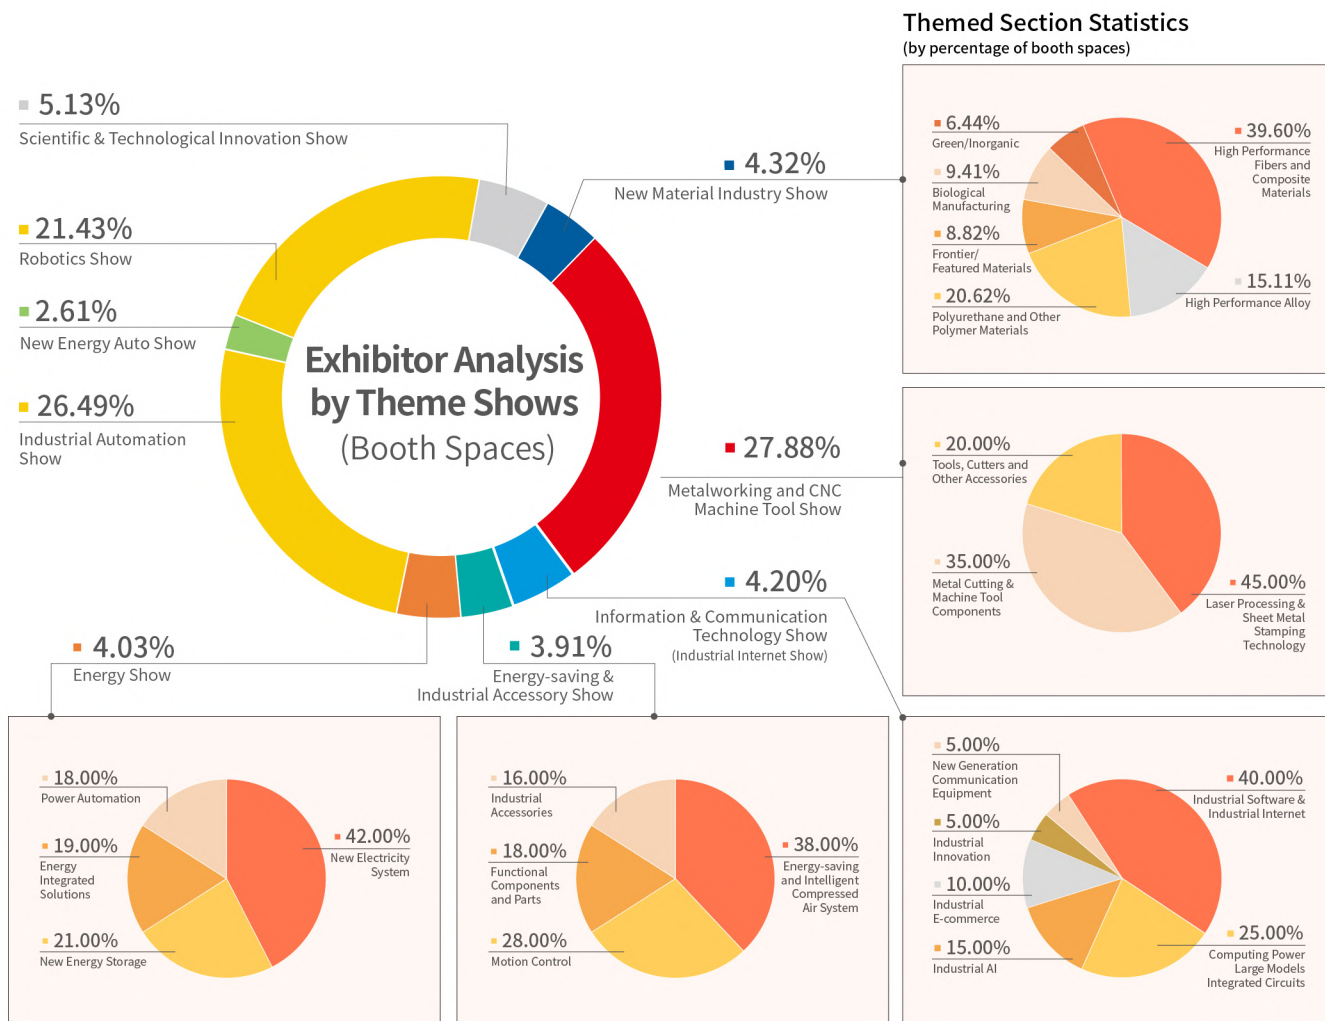

Overview of 9 Theme Shows under CIIF 2024

Theme Shows	Total Show Spaces (sq.m)	Booth Spaces (sq.m)	No. of Exhibitors
Metalworking and CNC Machine Tool Show	75,085	32,492	698
Industrial Automation Show	63,260	30,871	607
Energy-saving & Industrial Accessory Show	11,760	4,562	141
Information & Communication Technology Show (Industrial Internet Show)	18,400	4,892	134
Energy Show	12,200	4,696	188
New Energy Auto Show	10,000	3,046	33
Robotics Show	53,060	24,973	350
New Material Industry Show	22,200	5,035	293
Scientific & Technological Innovation Show	14,100	5,973	166
Total	280,065	116,540	2,610

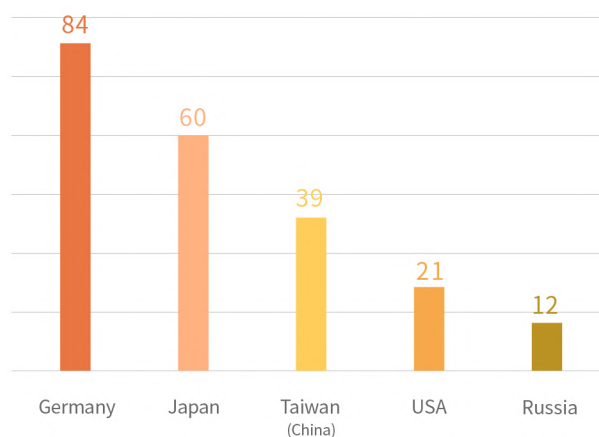

*Notes:

a. Scientific & Technological Innovation Show includes Science & Technology Innovation Pavilion, University & College Exhibition Area, High and New Technology Outcomes Show and etc.

b. The number of exhibitors does not include the number of cooperation media.

Top 5 Overseas Exhibitors Countries and Regions

Jinan Bodor CNC Machine Co.,Ltd.

Bodor aligns highly with CIIF regarding strategic goals and values, and the two parties have established a close and in-depth strategic partnership. This year, Bodor made a grand appearance at CIIF 2024, showcasing its brand strength as the world's top-selling brand for five consecutive years to users around the globe. Looking forward, we hope both parties can continue to leverage their respective professional field advantages to promote industry development further, deepen resource integration, and enhance collaborative content, jointly advancing the healthy development of the manufacturing industry and embracing the beautiful future of "Intelligent Manufacturing in China."

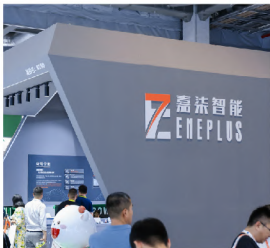

Guangdong Baldor-tech Co., Ltd.

A national-level SRDI little giant firm, a demonstration factory for digital and intelligent transformation in Foshan City

Baldor demonstrated advanced energy-saving air compressors and intelligent energy solutions at CIIF 2024 this year. Customers from home and abroad highly praised the technology and concept of driving energy conservation and carbon reduction with data. CIIF has become an important platform for showcasing the high-quality development achievements of China's industry.

Shanghai ENEPLUS Intelligent Technology Co., Ltd.

This year marks our second participation in CIIF. As a leading company in new power systems, the visitors showed great interest in the cutting-edge technology products and innovatively intelligent solutions we brought, and we conducted preliminary business exchanges and hoped for more cooperation opportunities.

KUKA

KUKA brought various new robot hardware, software products, and industry solutions to the Robotics Show of CIIF 2024. By integrating robotic automation with informatization and intelligentization, KUKA provides a "shortcut" for Chinese industrial users to move towards intelligent manufacturing. As a "loyal fan" of CIIF, KUKA sincerely thanks CIIF for a friendly exchange platform for digitalization and intelligent manufacturing, which helps KUKA accelerate the development of new productive forces, deeply promote new industrialization, and embrace a "smart" manufacturing future sooner.

Innomotics Large Drives (Shanghai) Co., Ltd.

A leading company focusing on the motor and large drive industry

Innomotics (formerly Siemens Drive) debuted at CIIF 2024 with a new identity for the first time after the independent operation of the brand. Thank you to the organizer for creating the largest scale and most comprehensive display content in the industrial field for exhibitors with years of industry accumulation. The participation was very fruitful.

Wellintech Co., Ltd.

A world-leading supplier of industrial cloud operating systems

As a long-standing friend of CIIF, we are looking forward to joining hands with CIIF to make progress together, engage in in-depth exchanges and cooperation with more enterprises and talents in the field of industrial automation, and help manufacturing enterprises seize opportunities for technological and industrial transformation, keeping pace with the opportunities and steps of digital transformation.

Li Auto

A car company focused on artificial intelligence

It is our first time participating in CIIF, and we feel the lively atmosphere of the entire event. Many high-tech enterprises are exhibiting alongside us, and a lot of foreign friends are visiting the site. We hope to work with all practitioners in the automotive industry and car merchants to create products that make us prouder and more intelligent and to provide services beyond the needs of our customers and consumers.

Shanghai Boronmatrix Advanced Materials Technology Co., Ltd.

The first high-tech enterprise in the country focused on boron nitride nanotubes and boron nitride nanosheets.

It is our first time attending CIIF, and we have uncovered numerous business opportunities for expanding market applications. We also hope that CIIF can actively promote the application of nano-based new materials to bring newer materials and more advanced choices to the industry for continuous upgrading, expansion, and innovation.

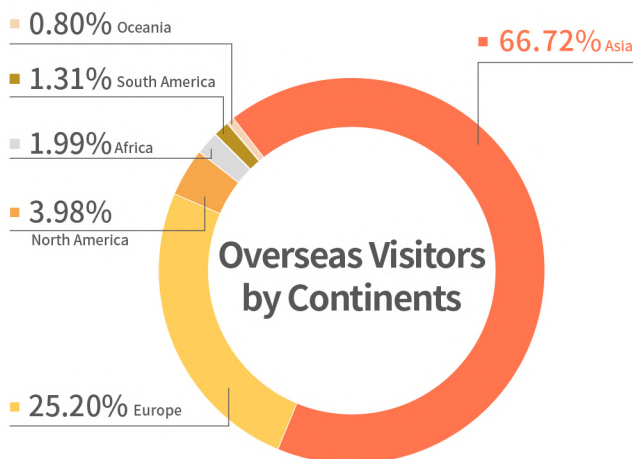

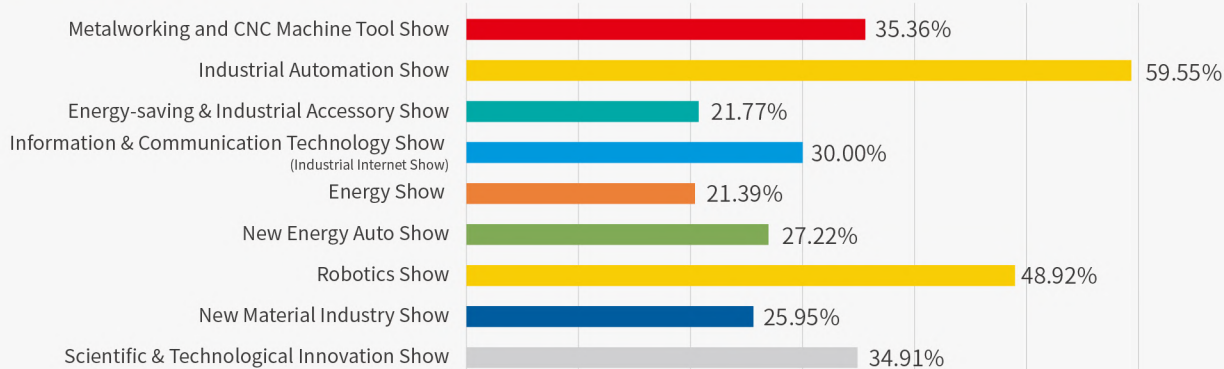

Big Brands at CIIF 2024

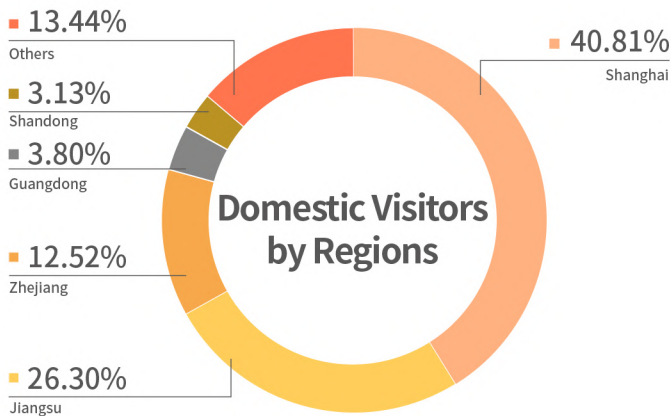

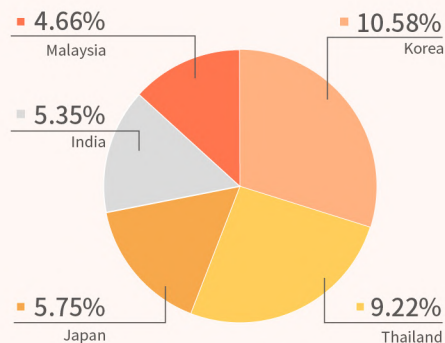

*Rank in no particular order

There were 201,618 visits at CIIF 2024 from 59 overseas countries and regions, as well as 31 domestic provinces, autonomous regions, and municipalities of Mainland China.

international and domestic industry benchmarks and representatives of innovative start-up enterprises

Guest quotes (Partial)

WANG Haibin

Executive Vice President Siemens Ltd., China
General Manager, Digital Industries, Siemens Greater China

New quality productive forces with technological innovation at the core will undoubtedly become the key force driving the Chinese industry towards a new stage.

LU Bingheng

Academician of the Chinese Academy of Engineering

3D printing + biotechnology = organ regeneration. Additive manufacturing is a leading common technology of manufacturing innovation. Chinese companies are adopting 3D printing to replace mechanical processing workshops.

CHU Junhao

Academician of the Chinese Academy of Sciences

Intelligent systems have three major characteristics: dynamic perception, intelligent equipment, and automatic response. The level of sensors determines the level of the system. The development trend of MEMS is more integrated and intelligent.

Ian PANNEL

Chief Technology Officer of GSMA

Use software to define different functions. The use of software can provide an interactive plane that allows users to directly interact with the technology platform.

GE Junbo

Academician of the Chinese Academy of Sciences

The connotation of the craftsman spirit includes dedication, excellence, focus, and innovation. I am very grateful for the CIIF Craftsman Award's recognition of my team and me. We will continue to practice the craftsman spirit with full enthusiasm not only in the past but also in the present and future, aiding the development of the era and guiding the strategy of a powerful country.

YAN Weixin

Chief Scientist of the Shanghai Artificial Intelligence Research Institute
Doctoral Supervisor of Shanghai Jiao Tong University

XU Heyuan

Chief Expert of the China Academy of Information and Communications Technology

Digital transformation is an issue that every company needs to study. By fully connecting people, machines, and things, we can build a new type of industrial infrastructure that connects all elements, the entire industry chain, and the entire value chain to achieve digital goals.

Thinking integrates humanoid robots with embodied intelligence. There are two keys to promoting the development of humanoid robots through embodied intelligence or general large models. The first reason is dexterous manipulation ability, and the second is embodied intelligence.

CIIF 2024 features the CIIF Awards, CIIF Professional Awards, and CIIF Craftsman Awards. CIIF Awards are one of the essential functions of CIIF, with award categories constantly anchored at the forefront of the industry, showcasing international cutting-edge fields, focusing on historical heritage, promoting the spirit of striving for perfection, and continuously playing a leading role in industrial manufacturing.

CIIF Awards

The CIIF Awards are the highest award within the CIIF award system, presented to global industrial products that represent the cutting-edge integration of industry and informatization, achieve significant technological and model innovation breakthroughs, realize demonstrative applications or scaled commercial use, and play a leading and driving role in developing the industry and regions.

CIIF Professional Awards

The CIIF Professional Awards are granted to emerging industrial products possessing a high level of specialization, strong innovation capabilities, and significant development potential, which will provide momentum for the growth of both large-scale and start-up (innovative) enterprises and contribute breakthroughs for the development of world technology and new industrial civilization.

CIIF Craftsman Awards

The CIIF Craftsman Awards, aiming to explore cultural connotations and continue the inheritance of craftsmanship, are granted to individuals and teams that demonstrate an exceptional spirit of craftsmanship in terms of technical level, innovation ability, market performance, quality awareness, and collaborative sharing.

2024 CIIF Awards

Jiangnan Shipyard (Group) Co., Ltd.	175,000 CBM MARK III FLEX LNG CARRIER “LNG JUMBO”
Shanghai Zhenhua Heavy Industries Co., Ltd.	Development and application of multi-functional Service Operation Vessel
Nanjing Tech University	Bio-based material product and equipment based on microfluidic reaction
Tongji University	Realtime monitoring equipment for determining high concentration of complex solution with its original valence state, form state and phase state
BWT Beijing Ltd.	Thunder 150kW Ultra-High Power Fiber Laser
JAKA Robotics Co.,Ltd.	JAKA MAX Industrial Cobots
ALG Aluminium Inc.	6N61 SP Aluminum Alloy For Semiconductor Equipment
Shanghai Research Institute of Chemical Industry CO., LTD	New generation ultra-high strength UHMWPE fiber and specialized resin
LANDSPACE TECHNOLOGY CO., LTD.	ZQ-2 Launch Vehicle System
Shanghai Vertaxi Aviation Technology Co.,Ltd	E6 eVTOL Fixed-wing UAV

2024 CIIF Craftsman Awards

Yaskawa Electric Robotics Division	YASKAWA ELECTRIC(CHINA)CO.,LTD
Dr. Liao Benren's team	Shanghai No.4 Reagent Chemical Co., Ltd.
Ge Junbo	Zhongshan Hospital, Fudan University

A total of 74,951 reports were revealed this year, with nearly 300 media outlets worldwide participating.

42,600 reports were disseminated through traditional media, accounting for 57%

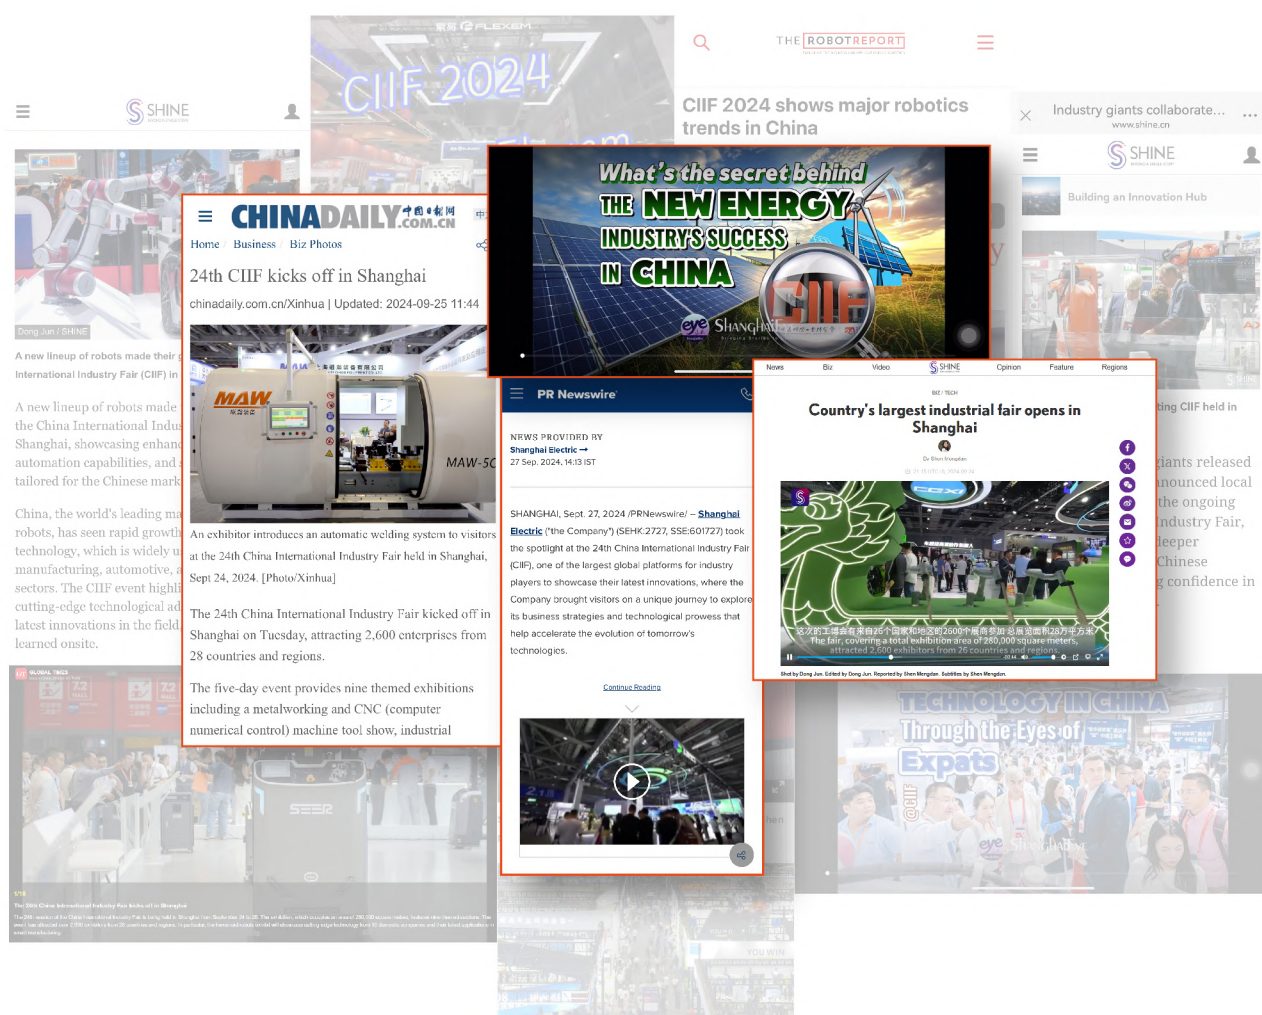

32,351 reports were spread over new media, accounting for 43%

GoCIIF, a digital platform under CIIF, emphasizes the concept of industrial social networking by launching functional sections such as industrial communities, new quality talent, and supply-demand docking. It strengthens the interaction and communication between enterprises. GoCIIF aims to create the most comprehensive online Industrial User Social Hub that provides a specialized social circle where industrial professionals can communicate, learn, and innovate with each other.
